PROJECTS

Organization Name	: OSMANIA UNIVERSITY FACULTY OF SCIENCE	Hyderabad, Telangana 2023-Mar 2023(1 M)
--------------------------	---	--

Responsibilities

- Successfully implemented real-time monitoring of students' behavior during exams, including detecting suspicious mouse movements, keystrokes, and tab switches.
- Received an A grade for the project, which was one of the top projects in the class.
- The tool received positive feedback from the professor and was appreciated for its effectiveness in preventing cheating during online exams.

Project Name : Online Exam Student Anti Cheat Tool.

Project Abstract : The Student Anti-Cheat Tool helps reduce these problems by detecting students faces with face recognition for identification and Students onscreen time with mobile phone cheating detection.

Role in Project : Worked as a part of a team of five developers and contributed to the design and implementation of the tool's user interface, behavior monitoring algorithms, and testing.

Skills Gained:

- Python programming for developing anti-cheating tools.
- Integration of anti-cheating tools with learning management systems.
- Real-time monitoring of user behavior.
- Teamwork and collaboration skills in a group project.
